LANGUAGES

Persian — Native

English — Professional

German — Intermediate (B1)

SKILLS

Design Tools

Figma · FigJam · Framer · Photoshop · Illustrator

Technical

HTML · CSS · Basic JS

Available for internships and entry-level UI/UX roles across Germany and Europe.

PROFILE

UI/UX designer with a background in graphic design and full-stack web development. Skilled in user research, wireframing, and interactive prototyping with Figma, with hands-on experience turning UX concepts into real, coded interfaces. Comfortable working across the full design process — from research and information architecture to high-fidelity prototypes and usability testing.

User Research · Wireframing · Prototyping · Accessibility · Cross-functional Collaboration

PROFESSIONAL EXPERIENCE

Full Stack Web Developer (Internship)

10/2024 – 01/2025

Meteocontrol GmbH

- Created the concept and design for a webpage on an existing site, keeping it consistent with the established visual language
- Implemented the website using HTML, CSS, and JavaScript, bridging the gap between design and front-end development

Graphic Designer (Internship)

11/2019 – 06/2020

Raimon Creative Solutions

- Handled photography and photo editing in Adobe Photoshop for client projects
- Designed advertisements and logos from concept through final delivery

EDUCATION

UI/UX Design Bootcamp (On-site)

09/2025 – 02/2026

XGEN Academy

- User research, personas, and user journey mapping
- Information architecture, wireframing, and interactive prototyping in Figma
- UI principles: typography, color, layout, accessibility, and usability testing

Bachelor's in Graphic Design

09/2015 – 07/2019

University of Applied Science "Farhang Va Honar" · GPA 19.4/20

CASE STUDIES

PillBox — Medication Management App

- Designed a medication tracking experience for patients and caregivers
- Created user flows, wireframes, and interactive prototypes
- Focused on reminders, medication adherence, and caregiver support

Fit Smart Home — Fitness & Wellness Platform

- Designed a platform combining fitness, nutrition, and wellness coaching
- Developed user journeys and UX concepts focused on engagement
- Created wireframes and prototypes for key user experiences
