SUMMARY

Junior UI/UX Designer with hands-on project experience designing a mobile home-services booking app. Skilled in competitor analysis, UX benchmarking, user flows, wireframing, UI design, design systems, and interactive prototyping. Brings an analytical approach to structuring user journeys and creating clear, consistent interfaces.

EXPERIENCE

UI/UX Designer — 2026

XGen Academy

Home Services & Repairs Booking App

· Analyzed competitor services and benchmarked booking experiences to identify common patterns and opportunities.
· Mapped user flows and created wireframes to structure key booking journeys and app navigation.
· Designed mobile UI screens and organized reusable components into a consistent design system.
· Built an interactive Figma prototype to demonstrate the main user flows and interface interactions.

Tools: Figma, FigJam
